

New Source Review newspaper advertisements for construction permit applications, December 21, 2017. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications will be or was published on the following date: December 21, 2017. Public notices are generally published every week. The previous publication of public notices was December 14, 2017.

#### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15<sup>th</sup> Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2<sup>nd</sup> Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Cintas Corporation with a mailing address of 27 Whitney Drive, Milford, OH 45150. The facility seeks to obtain an air contaminant permit (05-0312/973457) for an Industrial Laundering Facility at 340 Dunavant Drive, Maryville, TN 37853. The proposed operation will consist of five (5) Dryers, nine (9) Washers, one (1) boiler, and one (1) steam tunnel. Natural gas will be used as fuel for the sources. Because this is an existing source, there will not be any construction. Regulated air contaminants will be emitted. Tawanna F. Reid is the assigned Division person.

For the Blount County "Maryville Daily Times"--publish once on Thursday, December 21, 2017.

---

The applicant is Pringles Manufacturing Company with a mailing address of 1306 Hwy 70 Bypass, Jackson, TN 38301. They seek to obtain an air contaminant permit (Division identification number 57-0035-42 & 43/973568) for modification of existing cracker lines (23 and 26) operation at 1306 Hwy 70 Bypass, Jackson, TN 38301. The requested modification is to introduce Ammonium Bicarbonate ( $\text{NH}_4\text{HCO}_3$ ) as a leavening agent to bakery dough and account for the subsequent ammonia emissions. Because of the nature of the emission no control device is proposed. There will be no physical construction and regulated air contaminants will be emitted by this modified source. Mr. M Ahmed is the assigned Division person.

For the Madison County "Jackson Sun-Daily"--publish once on Thursday, December 21, 2017.

---

The applicant is Shiloh Die Cast Midwest LLC with a mailing address of 901 Alfred Thun Road, Clarksville, TN 37040. They seek to obtain an air contaminant permit for sources located at the same address, as follows:

(1) Four (4) Natural Gas Fired Melting Furnaces (Division identification number: 63-0164-01, -03, -04 / 71165). This existing operation consists of four natural gas-fired furnaces and associated equipment used to produce molten aluminum for die-casting. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

(2) Six (6) Die-Casting Machines (Division identification number: 63-0164-02 / 71165). This existing operation consists of six die-casting machines and associated equipment used to produce aluminum parts for the automotive industry. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

(3) Shot Blast Operation (Division identification number: 63-0164-06 / 71165). This existing operation consists of an abrasive blasting machine used to clean and polish the surface of die-casted aluminum parts. A baghouse is used for air pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

(4) Three (3) Electric Melting Furnaces (Division identification number: 63-0164-07 / 71165). This proposed operation would consist of three electrically heated furnaces and associated equipment used to produce molten magnesium for die-casting. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

(5) Three (3) Die-Casting Machines (Division identification number: 63-0164-08 / 71165). This proposed operation would consist of three die-casting machines and associated equipment used to produce magnesium parts for the automotive industry. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

(6) Shot Blast Operation (Division identification number: 63-0164-09 / 71165). This proposed operation would consist of an abrasive blasting machine used to clean and polish the surface of die-casted magnesium parts. A baghouse would be used for air pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Montgomery County "Leaf Chronicle"--publish once on Thursday, December 21, 2017.
